

Your Vision Is Our Focus!

Miller Eye Center

Back to School is almost here so schedule your child's appointment now.

REASONS TO TAKE YOUR CHILD TO THE EYE DOCTOR:

- You may have noticed one or more signs of a vision problem in your child, or your child was recommended for an eye exam as the result of a children's vision screening which was done at school.
- Your child may run the risk factor for eye disease or eye problems due to family history.
- You may be required to take your child to an eye doctor under state law before he or she starts school.

According to Prevent Blindness America most eye problems in children can be corrected if they are detected and treated early. Appropriate eye care is essential for maintaining good vision. Some problems, if left untreated--even for a short period--can result in permanent vision loss.
